

E-News Letter

October - December 2016-17

Fancy Dress

Science & Environment Week

To develop the knowledge in different topics of Science and Environment and to satisfy the curiosity of the students, the activities had been planned in such manner so that students could learn from their practical experience.

Germination activity

Germination is the process by which a plant grows from a seed.

Students themselves had sowed the sprouts of the seeds in the soil, in the adjacent open areas of their classrooms. Students were taken to the garden and were shown different types of plants (herbs, shrubs, climbers and trees). Students were also shown different parts of plants as well.

They also learnt the spellings of the part of plants with the help of drawing and coloring activity.

One small sapling was kept in each class for the whole day, to demonstrate the parts of plants.

Celebrating 100 days of schooling

Children's Day

Birth anniversary of beloved Pt. Jawaharlal Nehru was observed on 15th November as Children's Day with gaiety and fervor in the pre primary wing of the school. Pre primary block of the school was decorated to make the children feel happy and special. Each wall of the pre primary block greeted the little ones with balloons and streamers. The campus was buzzing with the excitement and joy of the children. The students of Nursery F& G and KG F & G participated in the Fancy Dress Show on the theme 'Community Helpers'. Daffodil, the activity room was decorated beautifully where the children enjoyed the dances and the songs. The students were told about the legendary freedom fighter popularly known as Chacha Nehru, through the stories and incidents from his life. On this occasion, children received pencil and eraser as a token of love.

WORLD PEACE DAY

Children learnt the meaning of peace through fun way. They did palm printing on Wall. They shouted slogans which gave them a sense of responsibility to spread love, to have a peaceful heart and foremost to be a good human being.

The activity, Dove making was enjoyed by all children.

MATHS LAB ACTIVITY

Maths Lab is developed as a place where one can find a collection of games, puzzles and other teaching and learning materials. A handful of activities had been planned and prepared to shape up the Maths Lab. Here, teaching has become a tri-polar process where the teacher, students and subjects are the three poles. In this lab, learning becomes more meaningful and challenging. Students explore, estimate, experiment, question and hypothesize through activities.

Objective - To help young maths learners to practice important maths skills in fun and creative ways.

Learning Outcomes –

- Slow learners were found to be faster in learning and understanding the concepts.
- Students were found to be more systematic and disciplined.
- It was found to be better for learning concepts as compared to conventional classroom teaching.
- The learning is found to be retained for a longer period of time.

It is found to be very fruitful for the removal of maths- phobia from the younger ones' minds.

Learning Safety Rules

Objective:

- To make the students aware of general safety rules.
- To prepare them for basic safety steps in the event of an emergency.

Method:

- Students were told about the safety rules to be followed at home like staying away from the electrical switches, sharp objects like knives and blades, to avoid using match sticks e.t.c.
- A chart was shown to children to explain them the safety rules to be followed on road. They were told about the traffic rules and ways to ensure safety while driving and walking on the road.
- First aid being one of the most important factors of safety for oneself was explained to the students with the help of first aid kit. Many articles like Dettol, Bandage, and Ointments etc were used to describe the ways and significance of first aid and were told about the different articles which should be kept in a first aid kit.

Annual Sports and Prize Distribution

Special Counseling for Pre- Primary Class

Pre- primary education is an indispensable instrument for proper personality development of a child. The rate of development(academic , behavioral , social) and curiosity as well as receptivity to environment is maximum during the early years as the environmental influences are minimum for this age group. Habits and attitudes acquired during the early childhood become fairly deep rooted in the individual's personality .Considering these aspects , we emphasize a lot upon innovating and developing new strategies to educate and counsel our kids with the vision of shaping their lives in the best possible ways . We attempt to seek active involvement of the parental community in the teaching learning process through different programs and activities .

One such initiative was taken on 2nd December 2016 in which collaborative learning scaled new heights. The third counseling session of this academic year was conducted by the parental community .

*Parents from every section of pre –primary classes were selectively invited to counsel the students in their ward's class .Enthusiastic parents gladly accepted the invitation to try their hands at chalk and duster. It seemed to be a coveted opportunity to them that they did not want to miss .The novelty of the sessions made our classrooms alive with excitement, as rapt students imbibed the valuable lessons. The 40-minutes-sessions spanned a range of age-appropriate topics from many different subjects like **Life Skills, Mathematics, Health and Nutrition, Protection of Environment, Solar System**. Many other classes had Drawing and Craft activities that energized the creativity of the students like : **Clay modeling, Fork painting, Constructing mobile stands with ice-cream sticks, Christmas tree decoration***

The sessions were a grand success and truly engaged the heads, hearts and hands of the students. The mother-teachers of PPW were overwhelmed by the enrichment their little students received from the parents and thanked them wholeheartedly with specially prepared 'Thank You' cards. At the end of the day there was one concluding proposition on everyone's lips – these sessions should be conducted at least three to four times a year.

Primary-Middle & Senior Wing

Chhattisgarh Foundation Day

Chhattisgarh Foundation Day was celebrated on 2nd November; 2016. This day was celebrated with great enthusiasm. Children presented Chhattisgarhi song and dance. A PPT on "Save Electricity" was shown to the children by energy club. Prizes of CIGKL were distributed.

Workshop on Raising Readers

Childrens Day with Primary Wing

Children's Day was celebrated on 17th November, 2016. A floral tribute was offered to Pt. Jawaharlal Nehru, a statesman and man of great intellectual. The teachers presented beautiful song and dance before the students. A very beautiful message was also given to the children through a small one act play. Prizes for English Elocution Competition were distributed.

Fancy Dress

A fancy dress show was organized for the children of classes two and three on the occasion of Children's Day on 18/11/2016 and 19/11/2016 in the school auditorium. The students came in colorful attire. They performed enthusiastically on the stage. It was nice to watch them. Total participants in Class II were 211 and Class III were 196.

Declamation Programme

Declamation is an exercise of expression through speech. The discourse brings about passionate views of individuals through their expressions. The students were offered this platform to subdue stage fear and have their skills of pronunciation, punctuation, fluency and voice modulation. Topics for the students of class II were 'My favorite cartoon character and 'Dussehra' and the topics for the students of class III were 'My Ambition in life' and 'Dussehra. Students expressed their views in 8-10 lines.

Annual Sports & Prize Distribution

There is a famous quote, "A sound body has a sound mind". The health of the body is essential for success in life. An unhealthy man always feels weak, thus losing confidence and hence becomes very dull and inactive. To keep healthy, one must take an active interest in sports and games. Thus sports and games serve an essential purpose in life because they ensure good health and build a fine physique.

Annual Sports Day was observed on 8th December, 2016. An encouraging song was presented before the students. Prize winners of classes II, III and IV were awarded with Gold, Silver and Bronze medals.

Clay Modeling Week

Models, figures and creatures etc were made by the students who learnt the use of clay in creating masterpieces in their own right. Young artisans provided window to showcase their creative skills.

Christmas Day

Christmas Day was celebrated on 22nd December; 2016. A special song was presented by Jr. Choir group. Prizes for drawing and coloring were distributed.

Science & Environment Week

An entire week was invested to build scientific temperament in the students by showing them some interesting videos and conducting some classroom experiments.

Learning outcome: Development of scientific temperament in the students by learning by doing approach.

Creative Writing Week

Students wrote short competitions on some of the topics discussed in the class. They were given some guidelines about the topics. They spread their wings of imagination and created some beautiful articles. They shared their write ups with each other.

Book Week

To inculcate the habit of reading amongst the students an activity of reading moral based stories was conducted which was thoroughly enjoyed by the students.

Hand Washing Days

During recess time Hand Wash Activity was carried out for students of class II to V. The children were told about the rules and advantages of proper hand wash. This was done in the school wash room areas and liquid soap for the same was provided by the school. Children were taught proper ways and techniques to wash their hands. Demonstration by the teachers were given. They were also made to understand how they can be disease free by maintaining hygiene. This activity was conducted by Rita Mohan, class teacher of III-D on behalf of Health and Wellness club.

Constitution Day

On the occasion of constitution day on 26th November, some activities were conducted to aware the students about the Indian constitution. Students of class five were taught about Indian constitution in the class. They were told about the features mentioned in preamble of our constitution, fundamental duties and rights etc. Students of class five were also guided to prepare some informative articles, posters, drawings etc. and the same were displayed in administrative block display board and block no.5 display board.

Language Development Workshop

The programme began with the thought provoking, 'Thought of the day', a poem on the beauty and power of words and the news updates. Mrs. Rashmi Shrivastava delivered a motivational speech and gave a presentation on Language Development- the power of words and proper usage of the language. Through a video clip she established that we can change anything in the world, if we change our words. By quoting the examples of various great leaders and their responses in the hour of crisis and distress, the art and act of dealing with the negative emotions was taught. Students came to know that it's a misconception that we need to use disgraceful words to show our anger. They learnt that in the times of distress when the negative emotions try to overpower us there is always positive energy that can be put to work through words. Discussion was held on the disgraceful borrowed language which children pick up from the television etc. They were advised not to pick up such vocabulary. Students were guided to make proper use of language and to take a resolution to use English as the language of communication. A motivational speech on 'Disciplinary Language' was delivered by Mr. Ashish Pandey. He quoted some life time experiences illustrating the effects we can have by adopting various ways of communication with people.

Inter House Computer Programming Competition
