b) Quoting the lines from the above discussion, identify and explain any four factors affecting such decision.

Q28. 'R' Limited is a real estate company which was formed in 1950. In about 56 years of its existence the company has managed to carve out a niche for itself in this sector. Lately, this sector is witnessing a boom due to the fact that the Indian economy is on the rise. The incomes of middle class are rising. More people can afford to buy homes for themselves due to easy availability of loans and accompanying tax concessions. To expand its business in India and abroad the company is weighing various options to raise money through equity offerings in India. Finance manager of 'R' Limited made a blue print of financial requirement of business and also thinking of Whether to tap equity or debt market, whether to raise money from domestic market or international market or Combination of both? Whether to raise the necessary finance from money market or capital market.

Name the financial blue print of company and list its objectives

Q29. Mr. Udai Kotak holds the designation of Finance Manager in 'Jai Shree Ram Trading Limited'. Last year performance of his department was as per the expectation. Currently he is busy in preparing financial blueprint of the next five years. To begin with he tried to forecast the sales in the next five years. It is so because it is the sales on which depends the need for fixed and working capital. Thus an estimate was made with regard to both these items. Similarly, he collected data in respect of possible

profits in the coming years. In this way, one can know how much of capital will be available from within the business. The rest of the funds will be arranged from outside the business. He is also thinking about the sources of finance to be tapped outside the business.

- a) Identify the financial concept as referred to in the above paragraph
- b) Explain five points of importance of the financial concept, so identified

Q30. Keeping in view the increasing number of cars taking over the Delhi roads, the Delhi Government is organizing Car-Free day campaign - "Ab Bus Karein". The government has urged the people of Delhi to refrain from travelling in their cars and two-wheelers and rather use public transport on 22nd of every month. The government also announced that there will be more DTC buses and three-wheelers available to ensure that commuters do not face difficulty. A separate cycle lane was also made for those who use bi-cycles for commuting. The supporters of this campaign demanded for construction of cycle stands in offices, hotels and shopping malls, as they were not able to get suitable space to park their bi-cycles.

State whether there will be any change in fixed capital requirements of government, offices, hotels, shopping malls etc., due to this campaign. Give reason to justify your answer.

State any two values highlighted in the above case.

Q31. Naveen glass ltd is into this business for 20 years. Now due to expansion plans the company needs additional 100 crs. The finance manager is asked to decide about the capital structure after considering the pros and cons of both the sources-Owners fund and borrowed fund. He finds out the following facts. Cash flows of the company are unstable and he is in no mood to choose a source in which high risk is involved. Company also wants to retain control over the management of the affairs of the company. There is a boom period in the economy. The above disclosures lead to various factors which decide how much to finance from equity and how much from debt. The recent companies act has revised the tax on companies to 20% from 15%. Amidst all this the company is also facing heavy operating costs of salaries, rent, premiums etc. Quoting the relevant lines, identify any such six factors
