

O. P. JINDAL SCHOOL, RAIGARH (CG) 496 001, INDIA

Phone: 07762-227042, 227293, (Extn. 227001 - 49801, 02, 04, 06, 09); Fax: 07762-262613; website: www.opjsrgh.in; e-mail: opjsraigarh@jspl.com

CLASS: XI ECONOMICS

1. Distinguish between Variable and Attribute. Explain with example.
2. Define classification of data? Explain its objectives.
3. Explain the methods of classification of data giving Suitable examples.
4. Explain discrete and continuous variables with examples.
5. Define series and explain the different types of series.
6. Define Frequency distribution. State the principles required to be observed in its formation.
7. Distinguish between exclusive and inclusive series.
8. How cumulative frequency curve (Ogive) is drawn?
9. What are the merits and limitations of diagrammatic representation of statistical data?
10. Explain Bar diagram and Pie diagram with suitable diagram.
11. Name any one industry, for which license is needed.
12. What do you mean by tariff barriers?
13. . Give the meaning of non-tariff barriers?
14. Why is new economic policy known as the policy of economic reforms?
15. Mention any three causes, which were responsible for economic reforms (1990-91 crises).
16. Discuss the common characteristics of poor people.
17. Is there any relationship between unemployment and poverty?
18. How does low rate of economic development leads to poverty?
19. List some of the poverty alleviation programmes initiated by the Government?
20. . Briefly discuss the National Rural Employment Guarantee Act 2005.
21. Change the following into continuous series and convert the series into "less than" and "more than " cumulative series;

Marks (Mid points	5	15	25	35	45	55
No of students	8	12	5	9	4	2

- 22 Present the following data by simple bar diagram

Year	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10
Production(million tons)	87	65	57	91	74	82

- 23 If class mid points in a frequency distribution of a group of persons are 125,132,139,146,151,160,167,174,181 pounds .find size of class intervals.
- 24 The frequency distribution of marks obtained by students in a class test is given below .Draw a histogram to represent the frequency distribution of marks

Marks	0-10	10-20	20-30	30-40	40-50	50-60
No of students	18	12	15	19	14	23

Explain in brief, the liberalization reforms introduced in the financial
