

An Initiative of O. P. Jindal School, Raigarh

"Talent and efforts are nothing without focus and determination."

This scheme is introduced in class X, more specifically for the students of science stream.

OBJECTIVE

- *To prepare students for national level competitive examination and to get admission in reputed educational institutions after class XII.*
- *To develop a stress-free competitive environment against the present stressful coaching culture and mock schools.*
- *To help students grow from inside and prepare for professional life.*

KEY FEATURES

- Identify the innate talents of the students
- Motivate students to set higher order targets
- Implement effective schemes to achieve the set targets
- Optimum use of school time
- Modern technology driven teaching by skilled faculty

STRATEGY

- Higher level teaching for deeper understanding of concepts initiated in class X, not only to secure better scores in Board examination, but also to make students familiar with class XI syllabus.
- Practice worksheets, question bank and other study materials are provided.
- Well-designed test series conducted weekly and monthly basis.
- Regular counselling and career guidance programmes are organised.
