## **HIGHLIGHTS OF THE INTEGRATED CURRICULUM AT FOUNDATION STAGE**

---

### **Flexible, Play and Activity based Learning:**

21<sup>st</sup> Century Learning Skills, Critical Thinking, Creativity, Collaboration, Problem Solving & Communication (*as per NEP 2020*) are being included in our Pedagogy of teaching & learning.

---

### **Achievable & Multileveled:**

Aside from core learning material (text books) we consider guidelines provided by NCERT & CBSE to develop highly engaging and innovative resources for Foundation Stage.

Development of Comprehensive Skills through stories, discussion, poeties and presentations. Such activities are planned and designed Gradual Release of Responsibility. (As per NEP 2020 & NCFFS 2022)

---

### **Aesthetic & Cultural Sense:**

Children develop the abilities and sensibilities in visual / performing art. They express their emotions in meaningful and joyful ways.

---

### **Foundation Literacy & Numeracy:**

It is an urgent and necessary pre-requisite to learning.

*(As per NEP 2020 & NCFFS 2022)*

## **ABOUT THE WING**

The Pre Primary Wing comprises of five classes i.e., Nursery, KG 1, KG 2, Class I and II. The Nursery sections have been named as Sun, Moon & Earth. Class KG-1 comprises of Four sections, class KG-2 Seven sections, class I Nine sections and class II Ten sections respectively.

## **OUR FEATURES**

Our little learners are provided with a very endearing and homely atmosphere under the care and supervision of around 42 dedicated teachers. We follow balanced, child-centric and integrated curriculum. Self-designed activity based teaching and learning makes the experience of learning joyful. Through Inclusive Education, children learn to be courteous and considerate towards friends, family and teachers. Knowledge of healthy habits and life skill help students enjoy a healthy life ahead. The activities are designed to teach them to be inquisitive and capable of exploring the possibilities of learning. A very well defined language development program helps them to learn the art of comprehensive speaking.

We are committed to provide the best practices in Early Childhood Care & Education towards the finest preparation for higher education. The team of teachers and stakeholders explore and evolve comprehensive programs and environment for the students to look after their well-being, relationship, family and community to grow up in a healthy mind and body.

## **How Children Learn at the Foundational Stage:**

Pre-Primary education is the foundation of all education. We prepare a strong foundation which makes the super-structure of higher education the strongest.

Pre-Primary education at OPJS is effective and impressive. Play is central to children's learning and development. Children actively listen, follow rules, participate in activities and games planned by Teachers. Teachers offer support and actively facilitate play.

- We facilitate appropriate curriculum provided with emotional and aesthetic need of the children.

- We develop suitable curriculum, teaching materials and adapt such teaching techniques, which make the teaching learning process a joyful experience for the students.
- At OPJS children have reasons to come to school every day. We acquaint them with the phenomena around them.
- We involve children in different activities and appreciate them even for the smallest task performed by them.

## **HEALTH & WELLNESS PROGRAM**

Healthy social environment refers to a state where the physical body is free from diseases, while wellness refers to an overall balance of a person's physical, social, spiritual, emotional intellectual environmental and occupational wellbeing. Wellness is an intervention that promotes healthy lifestyle and prevents from diseases.

As we know physical and mental wellbeing in children comes from healthy practices like physical activities, vaccination against diseases and a healthy diet.

For children the right to health is vital because they are vulnerable being more at risk to illness and health complications. In order to create awareness among children and parents many activities are being conducted in the school.

## **OUR TIFFIN POLICY**

Good health is the ultimate aim of every community. Health, as defined by WHO, is a state of complete physical, mental and social wellbeing and not merely the absence of disease. A healthy child is happy and alert to the people and things in environment, constantly active, age-appropriate physically developed with good aptitude , moist and clear eyes , firm abdomen , clear skin , is able to run and jump and recover from illness in time.

Food is the fuel to our life. Proper food intake guarantees adequate growth and development. Growing children need more energy. From 3-8 years of the age, the emphasis must be on necessary intake of calcium, vitamins A, C & D as well as proteins.

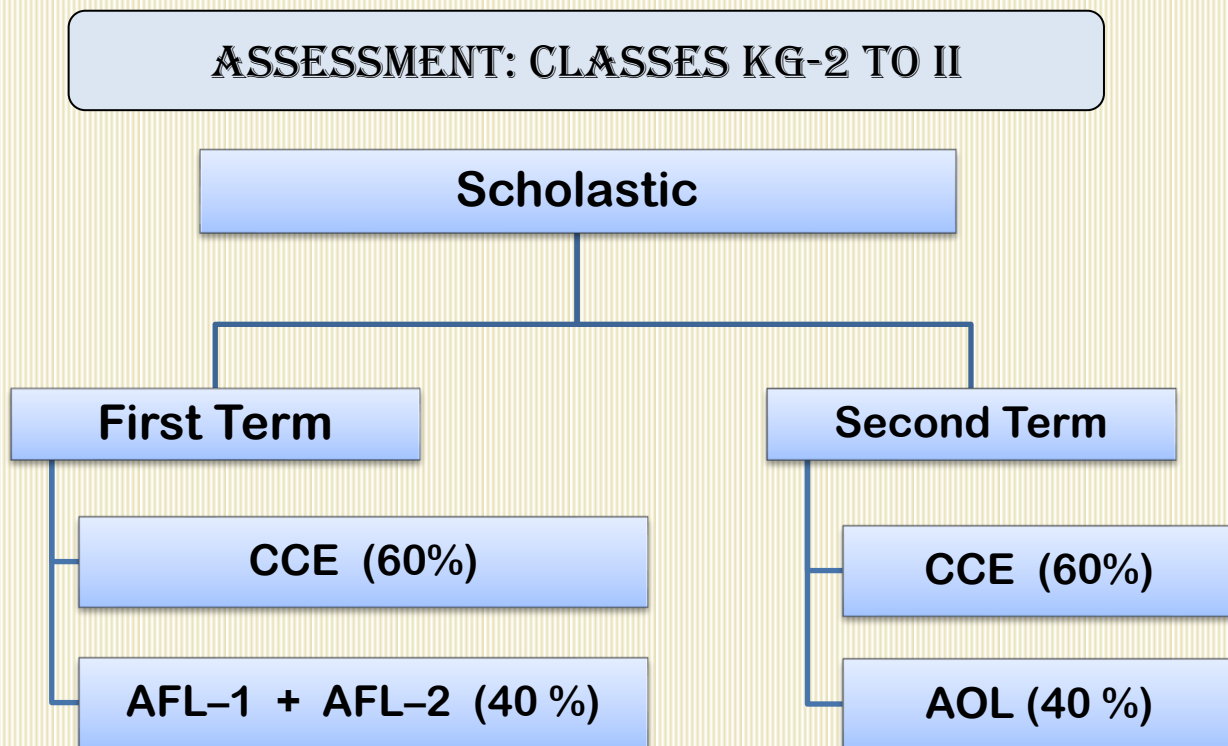

We make sure that all children take a daily recess as a short break to make them more attentive and their cognitive skills will be more functional.

# OUR ASSESSMENT POLICY

## Our Assessment Module

### Assessment Key – Classes Nursery to II

- No evaluation for classes **Nursery and KG-1**.
- Developmental scales to assess the children on co-scholastic points in the form of **Continuous & Comprehensive Evaluation**.
- No rank, only grades are awarded. Attendance in school counts.
- Diagnostic assessment helps us to plan out the pedagogical aspects.
- **AFL (Assessment for Learning) & AOL (Assessment of Learning)** are the tools to assess and record children's development, periodically.

### Remedial Action:

- Create a threat free environment where the child, whose confidence is low, will be able to ask or speak openly also cater to the students with the different learning styles.
- Reconsideration of conducting of Foundation Literacy and Numeracy (FLN)

In early age, the child's brain undergoes major development at a rapid pace. They hold enormous talent..... Just a little push and it sparks.
