- Q.25 Compare and explain with examples between Organised and unorganised sectors under the following points 3
- A. Wages B. safety C. health

SECTION – C

- Q.26 Read the following passage and answer the questions given below:

Muhammad Yunus is a famous economist of Bangladesh. He received several international honours for his efforts to promote economic and social development for the benefit of the poor. He and the Grameen Bank he started jointly received the Nobel Peace Prize for the 2006. In February 2007, he decided to launch a political party and contest in the parliamentary elections. His objective was to foster proper leadership, good governance and build a new Bangladesh. He felt that only a political party different from the traditional ones would bring about new political culture. His party would be democratic from the grassroots level. The launching of the new party, called Nagarik Shakti (Citizens’ Power), has caused a stir among the Bangladeshis. While many welcomed his decision, some did not like it. “Now I think Bangladesh will have a chance to choose between good and bad and eventually have a good government,” said Shahedul Islam, a government official. “That government, we hope, would not only keep itself away from corruption but also make fighting corruption and black money a top priority.” But leaders of traditional political parties who dominated the country’s politics for decades were apprehensive. “There was no debate (over him) winning the Nobel, but politics is different – very challenging and often controversial,” said a senior leader of the Bangladesh Nationalist Party. Some others were highly critical. They asked why he was rushing into politics. “Is he being planted in politics by mentors from outside the country,” asked one political observer.

- 26.1 Do you think Yunus made a right decision to form a new political party? 1
- 26.2 Do you agree with the statements and fears expressed by various people? 1
- 26.3 How do you want this new party to be organized to make it different from other parties? 2

Q.27 Read the following passage and answer the questions given below:

India is an agriculturally important country. Agriculture is a primary activity, which produces most of the food that we consume. Besides food grains, it also produces raw material for various industries. Moreover, some agricultural products like tea, coffee, spices, etc. are also exported.

Physical diversities and plurality of cultures in India are reflected in agricultural practices and cropping patterns in the country. Various types of food and fiber crops, vegetables and fruits, spices and condiments, etc. constitute some of the important crops grown in the country. Agriculture is an age-old economic activity in our country. Over these years, cultivation methods have changed significantly depending upon the characteristics of physical environment, technological know-how and socio-cultural practices. Farming varies from subsistence to commercial type.

- 27.1 'Agriculture has been the backbone of the Indian Economy'. Explain the statement by giving one suitable reason. 1
- 27.2 On what factors does the cropping pattern of our country depend upon? 1
- 27.3 Compare 'Intensive Subsistence farming' with that of 'Commercial farming' in India. 2

Q.28 Read the following passage and answer the questions given below:

More than half of the workers in the country are working in the primary sector, mainly in agriculture, producing only about one sixth of the GDP. In contrast to this, the secondary and tertiary sectors produce the rest of the produce whereas they employ less about half the people. What it means is that there are more people in agriculture than is necessary. So, even if you move a few people out, production will not be affected. Everyone is working, none remains idle, but in actual fact, their labour effort gets divided. Each one is doing some work.

There are thousands of casual workers in the service sector in urban areas who search for daily employment. They are employed as painters, plumbers, repair persons and others doing odd jobs. Many of them don't find work everyday. Similarly, we see other people of the service sector on the street pushing a cart or selling something where they may spend the whole day but earn very little. They are doing this work because they do not have better opportunities.

- 28.1 The situation referred above clearly indicates underemployment in agricultural sector. When does it occur? 1

- A. When people do not want to work
- B. When people are working in lazy manner
- C. When people are working less than their competency
- D. When people are not paid for their work

- 28.2 Why does 'underemployment' also called disguised unemployment? 1
- 28.3 Explain any one measure that can be adopted to remove disguised unemployment in the agricultural sector. 2

SECTION-D

- Q.29 How different social groups did interpret the Non Co-operation Movement? 5

OR

What were the political and economic scenario of India in between 1922 and 1930?

- Q.30 What are the major steps towards decentralisation taken in 1992 to make the third-tier of democracy more powerful and effective? 5

OR

What makes India a Federal Country?

- Q.31 "Water scarcity may be an outcome of large and growing population in India." (4+1)
Analyse the statement. How has Shillong solved the problem of acute shortage of water?

- Q.32 In what ways can employment opportunities be created in rural areas? Elucidate with examples. 5

SECTION-E

- Q.33 Locate the following places on an outline map of India.

- 33.1 Locate the place where Gandhiji ceremonially violate the Salt Law and manufactured salt by boiling sea water. 1

- 33.2 Locate the place where Indian National Congress Session finalized the Non-Cooperation Movement. 1

- Q.34 On the given outline map of India identify and locate the following :

- 34.1 Identify the crop marked as 'A' in the shaded region. 1

- 34.2 Locate any two dams given below 1 + 1

Tehri Dam, Bhakra Nangal Dam, Hirakud Dam
