**Q.9 Passage based Questions:**

Bhargavi was excited about the summer camp she was attending. She had gone to visit Manali in Himachal Pradesh along with her classmates. She recalled how surprised she was to see the changes in the landform and natural vegetation as the bus climbed higher and higher.

The deep jungles of the foothills comprising sal and teak slowly disappeared. She could see tall cone shaped trees with thin pointed leaves on the mountain slopes. She noticed blooms of bright flowers on tall trees. She learnt that those were Rhododendrons. From Manali as she was travelling up to Rohtang Pass she saw that the land was covered with short grass and snow in some places.

**Read the above passage and answer the questions that follow:**

- i. What type of vegetation did Bhargavi see in the foothills and in the mountain slopes? (1)
- ii. Mention two uses of the vegetation Bhargavi found in mountain slopes. (2)
