Class: IV

Topic: CHAPTER 11
NATURAL RESOURCES

Subject: ENVIRONMENTAL STUDIES

NOTE: THIS CONTENT HAS TO BE WRITTEN IN EVS NOTEBOOK

KEY WORDS

1. Oceans	2. Resources
3. Coal	4. Metals
5. Forests	6. Diesel
7. Soil	8. Kerosene
9. Oxygen	10. Purified
11. Petroleum	12. Tube wells
13. Refineries	14. Furnaces
15. Mines	16. Shelter

A. ANSWER THESE

Q. 1 Where do we get fresh water from?

Answer 1 We can get fresh water from lakes, rivers, ponds and from under the ground by digging wells and tube wells.

Q. 2 Name the natural resources that all living beings need?

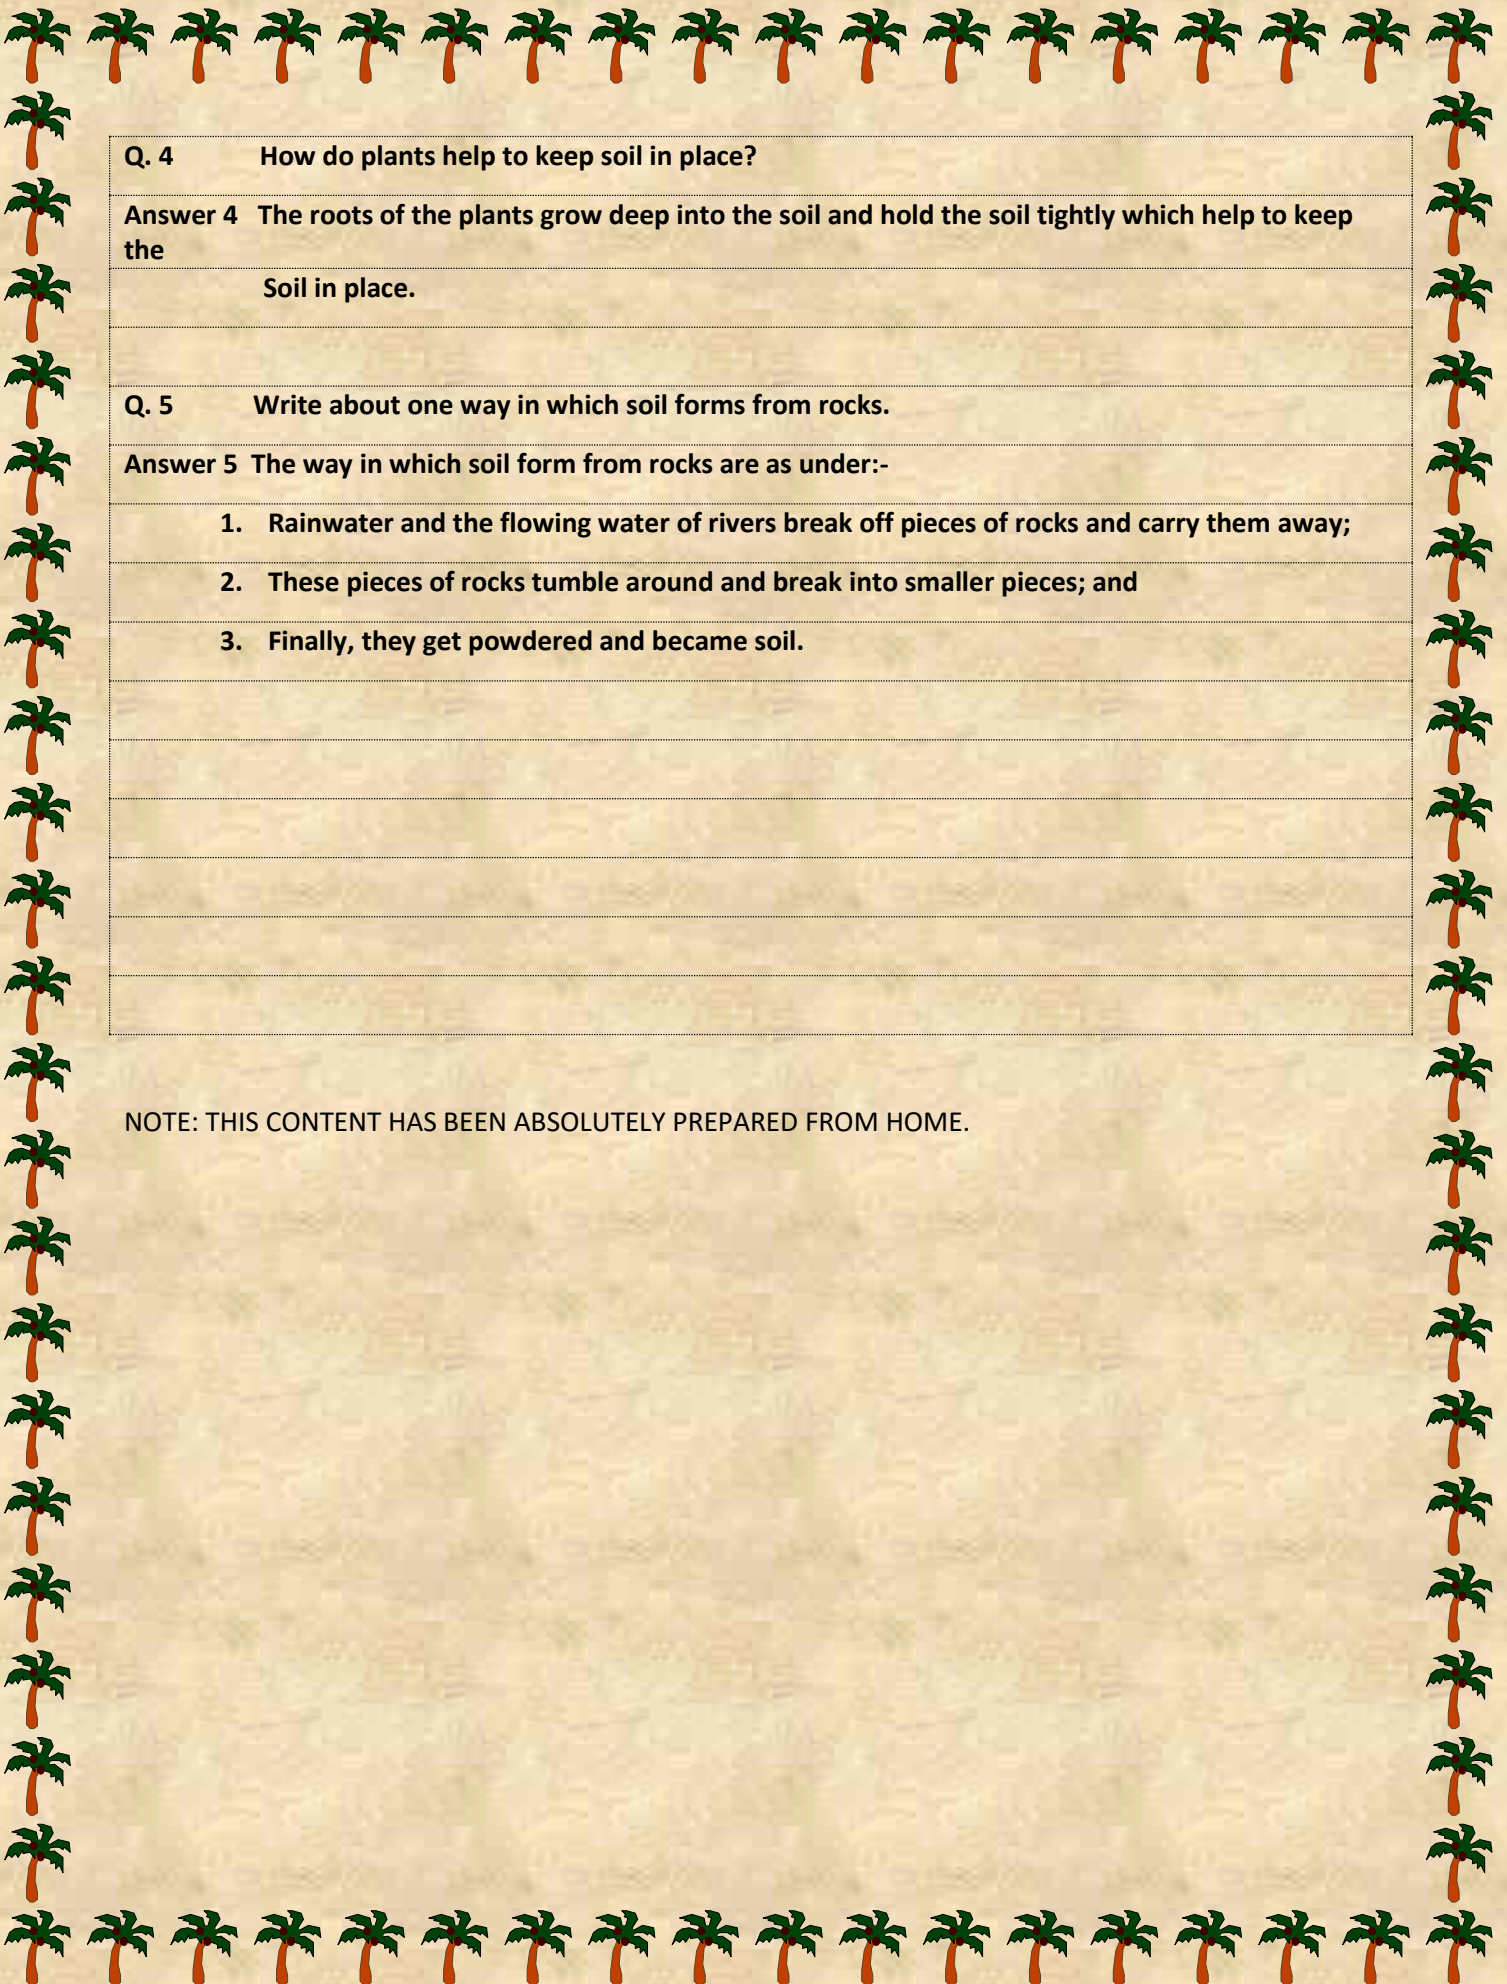

Answer 2 The three natural resources that all living beings need are:-

1. Air
2. Water
3. Soil

Q. 3 Name four ways in which forests help us.

Answer 3 The four ways in which forests help us are :-

1. They help to keep the air clean;
2. They provide shelter to the animals;
3. They give us many useful things like wood for furniture, medicines etc. ; and
4. They also help to bring rain and keep the area cool.

Q. 4 How do plants help to keep soil in place?

Answer 4 The roots of the plants grow deep into the soil and hold the soil tightly which help to keep the
Soil in place.

Q. 5 Write about one way in which soil forms from rocks.

Answer 5 The way in which soil form from rocks are as under:-

1. Rainwater and the flowing water of rivers break off pieces of rocks and carry them away;
2. These pieces of rocks tumble around and break into smaller pieces; and
3. Finally, they get powdered and became soil.
