

CLASS NOTES

Class: II

Topic: LET'S SHUT DOWN THE COMPUTER

Subject: Computer

Shut Down with these steps:

- First of all exit or close all your programmes you are working on.
- Go to the desktop icon.
- On desktop , you will see a start icon usually in the left side and in the extreme button.
- Click on the start icon with your mouse (always left click on start icon).
- You will see log off and turn off computer option there in the bottom.
- Click on the turn off computer option.
- You will see three option Stand by , Turn off , Restart.
- Again click on the Turn off option.
