IMPORTANCE OF PLANT

AS FOOD: Potato, Radish, Apple, Sugarcane, Onion, Rice, Spinach Tea Plant Leaves Roots, Stem Fruits & Seeds food. We eat different parts of plants.

AS FOR UTENSILS AND FURNITURE: Spoons, Chopsticks, Wooden Pencils, Wooden Bed, Wooden Door, Wooden Chair, Paper Bat. Wood Plants give us paper and wood.

AS MEDICINES: Amla, Turmeric, Aloe Vera, etc. Turmeric is used in cooking and also as anti-inflammatory Juice of Alovera plant is good for the skin. Amla juice is good for the stomach Tulsi Juice of Tulsi leaves is used for cough and cold.

AS FIBERS: Clothes are made from cotton fiber and linen fiber. Coconut and jute fibers are used to make ropes, mats etc.

AS PERFUMES: Sweet-smelling flowers like rose and jasmine are used to make perfumes.

AS PURIFIER AIR: Plants make the air clean and fresh. They give shadows stay away from sun heat. Plants also help to make the soil more nutrient.

And many more uses. Like human's beings, plants also need water, otherwise, they may die. So water the plants regularly. Plants breathe through their leaves so washes or clean the leaves regularly. Plants make their own food and grow using the sunlight. So make sure plants get sufficient sunlight.

THANK YOU, PLANTS!
