

Mr. Pradip Mishra has 28 years of experience of teaching Physics. He has completed his Post Graduation in Physics and B.Ed. At present he is serving as the Coordinator of Senior Wing (XI and XII). He ensures the general supervision of classes XI and XII as well as the academic progress and other related aspects like subject allocation, remedial teaching, special classes, practical examinations and preparation for IIT /NEET etc. His portfolio also includes taking measures for the talent management of the students along with the school alumni. Keeping the school's motto of developing the scientific temperament of the students, he works towards achieving the goals with the science teachers of our school. He is whole heartedly engaged in benchmarking academic standards as per the best at the national and international level. He also organises various workshops to create awareness on cyber issues, social media awareness, careers in science and technology and other science related activities. His sense of discipline, passion for teaching his subject and working for achieving the excellence make him stand apart. His will power, strong determination and sincerity towards his responsibility at challenging situations endear him to everyone the most.
